

## FGX Attends the 2016 Friends of Coal Golf Open

FGX had a great time attending the 2016 Friends of Coal Golf Open for the Illinois Coal Basin on Friday, June 3 at the Owensboro Country Club Golf Course. We sponsored a hole during the tournament and raffled off a \$100 gift card to the Pro Shop. This was a great event for people in the industry to get together and enjoy a day of golf.

## Dr. Parekh Speaks at Coal Association of Canada Conference

FGX's Senior Engineer, Dr. B.K. Parekh, spoke at the Coal Association of Canada's Annual Conference. The conference was held in Vancouver June 8th-10th. We are pleased that Dr. Parekh had the opportunity to present on FGX dry coal processing technology. Be sure to check our newsletter to find out where Dr. Parekh will be speaking next!

## Have You Seen Our New Look?

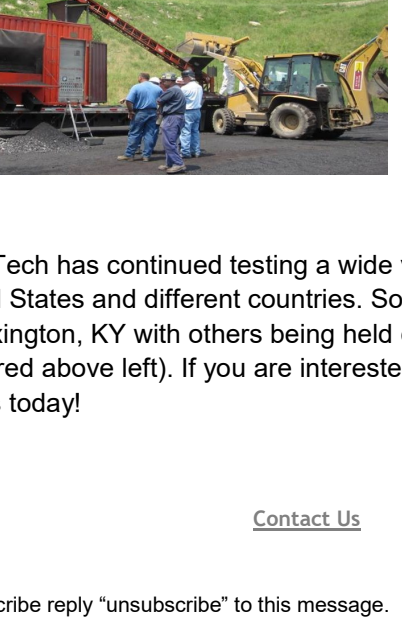

FGX online has a new look, [www.fgxseptechnology.com](http://www.fgxseptechnology.com)! Besides a stunning new design, it is also optimized for mobile devices and tablets so you can access it on any device. Our online [Information Library](#) is a great resource for learning more about FGX technology. Make sure you sign up with your [email](#) to receive the latest updates from our blog!

## FGX Goes Out West

FGX just returned from the [Rocky Mountain Coal Mining Institute Annual Conference](#) in Steamboat Springs, Colorado. The event took place Sunday June 26th through Tuesday June 28th. As with any RMCMI event, we had a great time and can't wait for the next one!

## FGX on Youtube - Check It Out!

FGX has a brand new Youtube channel with tons of videos showing FGX technology at work. You can see coal tested from many different regions in the US, as well as other countries around the world. Be sure to [check it out](#) and share our videos with your friends!

Above, the table distribution of an FGX plant is shown. You can see clearly how the reject, middlings, and clean coal are separated.

## FGX Testing Schedule Doesn't Slow Down

FGX SepTech has continued testing a wide variety of coal from different regions in the United States and different countries. Some tests are conducted at our headquarters in Lexington, KY with others being held at the mine site with our mobile testing unit (pictured above left). If you are interested in having your coal tested with FGX contact us today!

FGX just returned from the [Rocky Mountain Coal Mining Institute Annual Conference](#) in Steamboat Springs, Colorado. The event took place Sunday June 26th through Tuesday June 28th. As with any RMCMI event, we had a great time and can't wait for the next one!

## FGX on Youtube - Check It Out!

FGX has a brand new Youtube channel with tons of videos showing FGX technology at work. You can see coal tested from many different regions in the US, as well as other countries around the world. Be sure to [check it out](#) and share our videos with your friends!

Above, the table distribution of an FGX plant is shown. You can see clearly how the reject, middlings, and clean coal are separated.

## FGX Testing Schedule Doesn't Slow Down

FGX SepTech has continued testing a wide variety of coal from different regions in the United States and different countries. Some tests are conducted at our headquarters in Lexington, KY with others being held at the mine site with our mobile testing unit (pictured above left). If you are interested in having your coal tested with FGX contact us today!

## FGX Attends the 2016 Friends of Coal Golf Open

FGX had a great time attending the 2016 Friends of Coal Golf Open for the Illinois Coal Basin on Friday, June 3 at the Owensboro Country Club Golf Course. We sponsored a hole during the tournament and raffled off a \$100 gift card to the Pro Shop. This was a great event for people in the industry to get together and enjoy a day of golf.

## Dr. Parekh Speaks at Coal Association of Canada Conference

FGX's Senior Engineer, Dr. B.K. Parekh, spoke at the Coal Association of Canada's Annual Conference. The conference was held in Vancouver June 8th-10th. We are pleased that Dr. Parekh had the opportunity to present on FGX dry coal processing technology. Be sure to check our newsletter to find out where Dr. Parekh will be speaking next!

## Have You Seen Our New Look?

FGX online has a new look, [www.fgxseptechnology.com](http://www.fgxseptechnology.com)! Besides a stunning new design, it is also optimized for mobile devices and tablets so you can access it on any device. Our online [Information Library](#) is a great resource for learning more about FGX technology. Make sure you sign up with your [email](#) to receive the latest updates from our blog!

We are pleased that Dr. Parekh had the opportunity to present on FGX dry coal processing technology. Be sure to check our newsletter to find out where Dr. Parekh will be speaking next!

## Have You Seen Our New Look?

FGX online has a new look, [www.fgxseptechnology.com](http://www.fgxseptechnology.com)! Besides a stunning new design, it is also optimized for mobile devices and tablets so you can access it on any device. Our online [Information Library](#) is a great resource for learning more about FGX technology. Make sure you sign up with your [email](#) to receive the latest updates from our blog!

## FGX Goes Out West

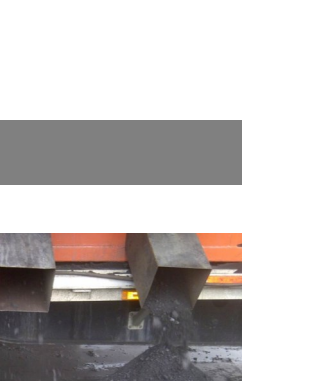

FGX just returned from the [Rocky Mountain Coal Mining Institute Annual Conference](#) in Steamboat Springs, Colorado. The event took place Sunday June 26th through Tuesday June 28th. As with any RMCMI event, we had a great time and can't wait for the next one!

## FGX on Youtube - Check It Out!

FGX has a brand new Youtube channel with tons of videos showing FGX technology at work. You can see coal tested from many different regions in the US, as well as other countries around the world. Be sure to [check it out](#) and share our videos with your friends!

Above, the table distribution of an FGX plant is shown. You can see clearly how the reject, middlings, and clean coal are separated.

## FGX Testing Schedule Doesn't Slow Down

FGX SepTech has continued testing a wide variety of coal from different regions in the United States and different countries. Some tests are conducted at our headquarters in Lexington, KY with others being held at the mine site with our mobile testing unit (pictured above left). If you are interested in having your coal tested with FGX contact us today!

## FGX Attends the 2016 Friends of Coal Golf Open

FGX had a great time attending the 2016 Friends of Coal Golf Open for the Illinois Coal Basin on Friday, June 3 at the Owensboro Country Club Golf Course. We sponsored a hole during the tournament and raffled off a \$100 gift card to the Pro Shop. This was a great event for people in the industry to get together and enjoy a day of golf.

## Dr. Parekh Speaks at Coal Association of Canada Conference

FGX's Senior Engineer, Dr. B.K. Parekh, spoke at the Coal Association of Canada's Annual Conference. The conference was held in Vancouver June 8th-10th. We are pleased that Dr. Parekh had the opportunity to present on FGX dry coal processing technology. Be sure to check our newsletter to find out where Dr. Parekh will be speaking next!

## FGX Attends the 2016 Friends of Coal Golf Open

FGX had a great time attending the 2016 Friends of Coal Golf Open for the Illinois Coal Basin on Friday, June 3 at the Owensboro Country Club Golf Course. We sponsored a hole during the tournament and raffled off a \$100 gift card to the Pro Shop. This was a great event for people in the industry to get together and enjoy a day of golf.

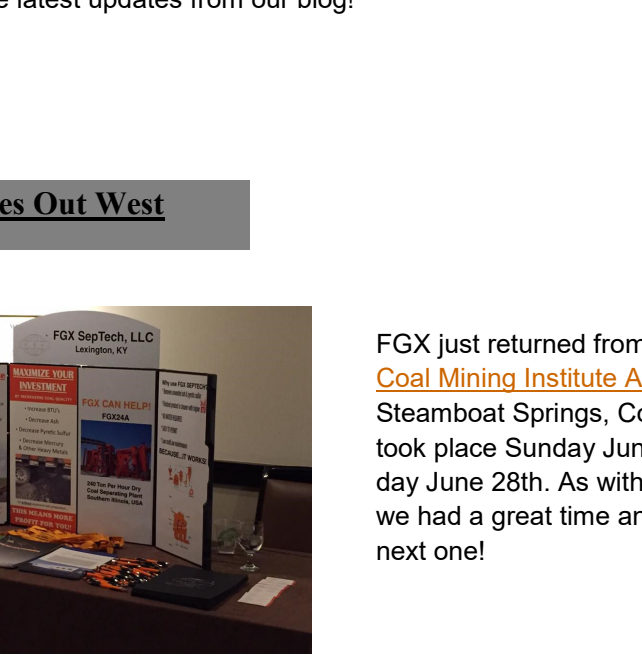

## Dr. Parekh Speaks at Coal Association of Canada Conference

FGX's Senior Engineer, Dr. B.K. Parekh, spoke at the Coal Association of Canada's Annual Conference. The conference was held in Vancouver June 8th-10th. We are pleased that Dr. Parekh had the opportunity to present on FGX dry coal processing technology. Be sure to check our newsletter to find out where Dr. Parekh will be speaking next!

## Have You Seen Our New Look?

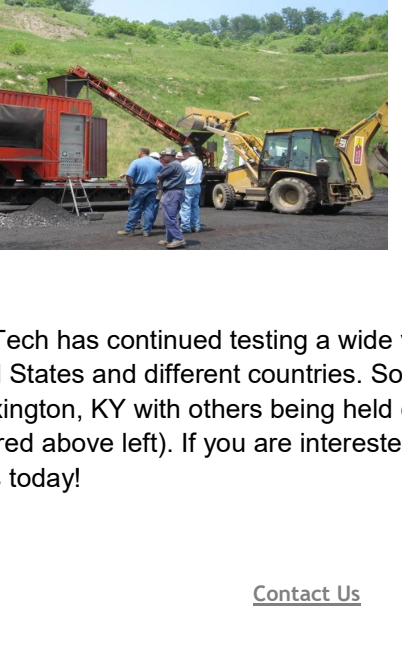

FGX online has a new look, [www.fgxseptechnology.com](http://www.fgxseptechnology.com)! Besides a stunning new design, it is also optimized for mobile devices and tablets so you can access it on any device. Our online [Information Library](#) is a great resource for learning more about FGX technology. Make sure you sign up with your [email](#) to receive the latest updates from our blog!

## FGX Goes Out West

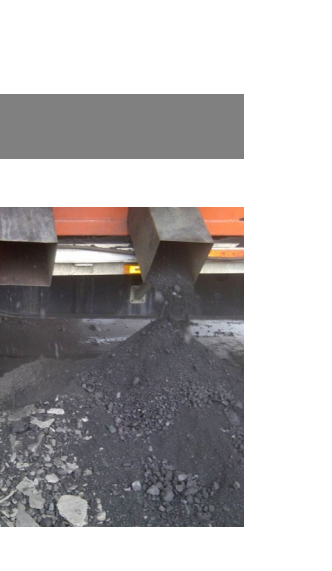

FGX just returned from the [Rocky Mountain Coal Mining Institute Annual Conference](#) in Steamboat Springs, Colorado. The event took place Sunday June 26th through Tuesday June 28th. As with any RMCMI event, we had a great time and can't wait for the next one!

## FGX on Youtube - Check It Out!

FGX has a brand new Youtube channel with tons of videos showing FGX technology at work. You can see coal tested from many different regions in the US, as well as other countries around the world. Be sure to [check it out](#) and share our videos with your friends!

Above, the table distribution of an FGX plant is shown. You can see clearly how the reject, middlings, and clean coal are separated.

## FGX Testing Schedule Doesn't Slow Down

FGX SepTech has continued testing a wide variety of coal from different regions in the United States and different countries. Some tests are conducted at our headquarters in Lexington, KY with others being held at the mine site with our mobile testing unit (pictured above left). If you are interested in having your coal tested with FGX contact us today!

## FGX on Youtube - Check It Out!

FGX has a brand new Youtube channel with tons of videos showing FGX technology at work. You can see coal tested from many different regions in the US, as well as other countries around the world. Be sure to [check it out](#) and share our videos with your friends!

Above, the table distribution of an FGX plant is shown. You can see clearly how the reject, middlings, and clean coal are separated.

## FGX Testing Schedule Doesn't Slow Down

FGX SepTech has continued testing a wide variety of coal from different regions in the United States and different countries. Some tests are conducted at our headquarters in Lexington, KY with others being held at the mine site with our mobile testing unit (pictured above left). If you are interested in having your coal tested with FGX contact us today!

## FGX Attends the 2016 Friends of Coal Golf Open

FGX had a great time attending the 2016 Friends of Coal Golf Open for the Illinois Coal Basin on Friday, June 3 at the Owensboro Country Club Golf Course. We sponsored a hole during the tournament and raffled off a \$100 gift card to the Pro Shop. This was a great event for people in the industry to get together and enjoy a day of golf.

## Dr. Parekh Speaks at Coal Association of Canada Conference

FGX's Senior Engineer, Dr. B.K. Parekh, spoke at the Coal Association of Canada's Annual Conference. The conference was held in Vancouver June 8th-10th. We are pleased that Dr. Parekh had the opportunity to present on FGX dry coal processing technology. Be sure to check our newsletter to find out where Dr. Parekh will be speaking next!

## Have You Seen Our New Look?

FGX online has a new look, [www.fgxseptechnology.com](http://www.fgxseptechnology.com)! Besides a stunning new design, it is also optimized for mobile devices and tablets so you can access it on any device. Our online [Information Library](#) is a great resource for learning more about FGX technology. Make sure you sign up with your [email](#) to receive the latest updates from our blog!

## FGX Goes Out West

FGX just returned from the [Rocky Mountain Coal Mining Institute Annual Conference](#) in Steamboat Springs, Colorado. The event took place Sunday June 26th through Tuesday June 28th. As with any RMCMI event, we had a great time and can't wait for the next one!

Our online [Information Library](#) is a great resource for learning more about FGX technology. Make sure you sign up with your [email](#) to receive the latest updates from our blog!

## FGX Goes Out West

FGX just returned from the [Rocky Mountain Coal Mining Institute Annual Conference](#) in Steamboat Springs, Colorado. The event took place Sunday June 26th through Tuesday June 28th. As with any RMCMI event, we had a great time and can't wait for the next one!

## FGX on Youtube - Check It Out!

FGX has a brand new Youtube channel with tons of videos showing FGX technology at work. You can see coal tested from many different regions in the US, as well as other countries around the world. Be sure to [check it out](#) and share our videos with your friends!

Above, the table distribution of an FGX plant is shown. You can see clearly how the reject, middlings, and clean coal are separated.

## FGX Testing Schedule Doesn't Slow Down

FGX SepTech has continued testing a wide variety of coal from different regions in the United States and different countries. Some tests are conducted at our headquarters in Lexington, KY with others being held at the mine site with our mobile testing unit (pictured above left). If you are interested in having your coal tested with FGX contact us today!

## FGX Attends the 2016 Friends of Coal Golf Open

FGX had a great time attending the 2016 Friends of Coal Golf Open for the Illinois Coal Basin on Friday, June 3 at the Owensboro Country Club Golf Course. We sponsored a hole during the tournament and raffled off a \$100 gift card to the Pro Shop. This was a great event for people in the industry to get together and enjoy a day of golf.

## Dr. Parekh Speaks at Coal Association of Canada Conference

FGX's Senior Engineer, Dr. B.K. Parekh, spoke at the Coal Association of Canada's Annual Conference. The conference was held in Vancouver June 8th-10th. We are pleased that Dr. Parekh had the opportunity to present on FGX dry coal processing technology. Be sure to check our newsletter to find out where Dr. Parekh will be speaking next!

## Have You Seen Our New Look?

## FGX Attends the 2016 Friends of Coal Golf Open

FGX had a great time attending the 2016 Friends of Coal Golf Open for the Illinois Coal Basin on Friday, June 3 at the Owensboro Country Club Golf Course. We sponsored a hole during the tournament and raffled off a \$100 gift card to the Pro Shop. This was a great event for people in the industry to get together and enjoy a day of golf.

## Dr. Parekh Speaks at Coal Association of Canada Conference

FGX's Senior Engineer, Dr. B.K. Parekh, spoke at the Coal Association of Canada's Annual Conference. The conference was held in Vancouver June 8th-10th. We are pleased that Dr. Parekh had the opportunity to present on FGX dry coal processing technology. Be sure to check our newsletter to find out where Dr. Parekh will be speaking next!

## Have You Seen Our New Look?

FGX online has a new look, [www.fgxseptechnology.com](http://www.fgxseptechnology.com)! Besides a stunning new design, it is also optimized for mobile devices and tablets so you can access it on any device. Our online [Information Library](#) is a great resource for learning more about FGX technology. Make sure you sign up with your [email](#) to receive the latest updates from our blog!

## FGX Goes Out West

FGX just returned from the [Rocky Mountain Coal Mining Institute Annual Conference](#) in Steamboat Springs, Colorado. The event took place Sunday June 26th through Tuesday June 28th. As with any RMCMI event, we had a great time and can't wait for the next one!

## FGX on Youtube - Check It Out!

FGX has a brand new Youtube channel with tons of videos showing FGX technology at work. You can see coal tested from many different regions in the US, as well as other countries around the world. Be sure to [check it out](#) and share our videos with your friends!

Above, the table distribution of an FGX plant is shown. You can see clearly how the reject, middlings, and clean coal are separated.

## FGX Testing Schedule Doesn't Slow Down

FGX SepTech has continued testing a wide variety of coal from different regions in the United States and different countries. Some tests are conducted at our headquarters in Lexington, KY with others being held at the mine site with our mobile testing unit (pictured above left). If you are interested in having your coal tested with FGX contact us today!

## FGX Attends the 2016 Friends of Coal Golf Open

FGX had a great time attending the 2016 Friends of Coal Golf Open for the Illinois Coal Basin on Friday, June 3 at the Owensboro Country Club Golf Course. We sponsored a hole during the tournament and raffled off a \$100 gift card to the Pro Shop. This was a great event for people in the industry to get together and enjoy a day of golf.

## Dr. Parekh Speaks at Coal Association of Canada Conference

FGX's Senior Engineer, Dr. B.K. Parekh, spoke at the Coal Association of Canada's Annual Conference. The conference was held in Vancouver June 8th-10th. We are pleased that Dr. Parekh had the opportunity to present on FGX dry coal processing technology. Be sure to check our newsletter to find out where Dr. Parekh will be speaking next!

## Have You Seen Our New Look?

FGX online has a new look, [www.fgxseptechnology.com](http://www.fgxseptechnology.com)! Besides a stunning new design, it is also optimized for mobile devices and tablets so you can access it on any device. Our online [Information Library](#) is a great resource for learning more about FGX technology. Make sure you sign up with your [email](#) to receive the latest updates from our blog!

## FGX Goes Out West

FGX just returned from the [Rocky Mountain Coal Mining Institute Annual Conference](#) in Steamboat Springs, Colorado. The event took place Sunday June 26th through Tuesday June 28th. As with any RMCMI event, we had a great time and can't wait for the next one!

## FGX on Youtube - Check It Out!

Above, the table distribution of an FGX plant is shown. You can see clearly how the reject, middlings, and clean coal are separated.

FGX has a brand new Youtube channel with tons of videos showing FGX technology at work. You can see coal tested from many different regions in the US, as well as other countries around the world. Be sure to [check it out](#) and share our videos with your friends!

## FGX Testing Schedule Doesn't Slow Down

FGX SepTech has continued testing a wide variety of coal from different regions in the United States and different countries. Some tests are conducted at our headquarters in Lexington, KY with others being held at the mine site with our mobile testing unit (pictured above left). If you are interested in having your coal tested with FGX contact us today!

## FGX on Youtube - Check It Out!

FGX has a brand new Youtube channel with tons of videos showing FGX technology at work. You can see coal tested from many different regions in the US, as well as other countries around the world. Be sure to [check it out](#) and share our videos with your friends!

Above, the table distribution of an FGX plant is shown. You can see clearly how the reject, middlings, and clean coal are separated.

## FGX Testing Schedule Doesn't Slow Down

FGX SepTech has continued testing a wide variety of coal from different regions in the United States and different countries. Some tests are conducted at our headquarters in Lexington, KY with others being held at the mine site with our mobile testing unit (pictured above left). If you are interested in having your coal tested with FGX contact us today!

## FGX Attends the 2016 Friends of Coal Golf Open

FGX had a great time attending the 2016 Friends of Coal Golf Open for the Illinois Coal Basin on Friday, June 3 at the Owensboro Country Club Golf Course. We sponsored a hole during the tournament and raffled off a \$100 gift card to the Pro Shop. This was a great event for people in the industry to get together and enjoy a day of golf.

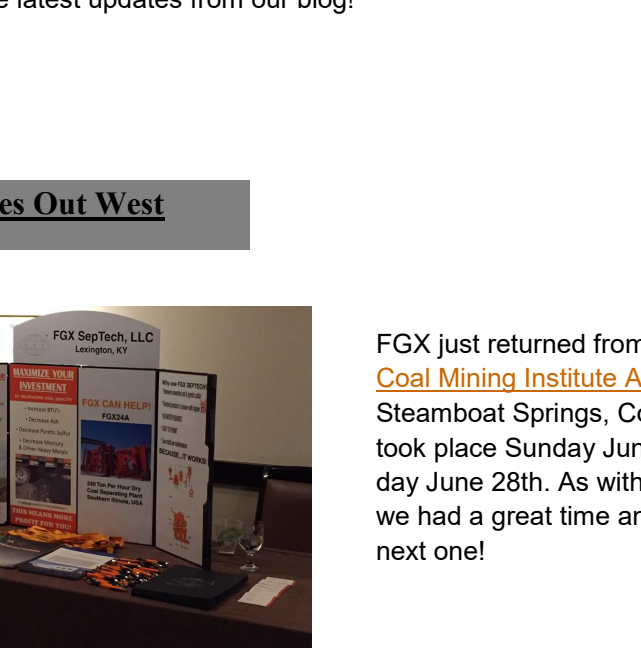

## Dr. Parekh Speaks at Coal Association of Canada Conference

FGX's Senior Engineer, Dr. B.K. Parekh, spoke at the Coal Association of Canada's Annual Conference. The conference was held in Vancouver June 8th-10th. We are pleased that Dr. Parekh had the opportunity to present on FGX dry coal processing technology. Be sure to check our newsletter to find out where Dr. Parekh will be speaking next!

## Have You Seen Our New Look?

FGX online has a new look, [www.fgxseptechnology.com](http://www.fgxseptechnology.com)! Besides a stunning new design, it is also optimized for mobile devices and tablets so you can access it on any device. Our online [Information Library](#) is a great resource for learning more about FGX technology. Make sure you sign up with your [email](#) to receive the latest updates from our blog!

## FGX Goes Out West

FGX just returned from the [Rocky Mountain Coal Mining Institute Annual Conference](#) in Steamboat Springs, Colorado. The event took place Sunday June 26th through Tuesday June 28th. As with any RMCMI event, we had a great time and can't wait for the next one!

## FGX Goes Out West

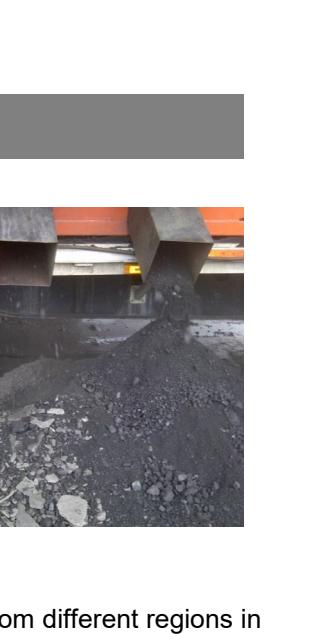

FGX just returned from the [Rocky Mountain Coal Mining Institute Annual Conference](#) in Steamboat Springs, Colorado. The event took place Sunday June 26th through Tuesday June 28th. As with any RMCMI event, we had a great time and can't wait for the next one!

## FGX on Youtube - Check It Out!

Above, the table distribution of an FGX plant is shown. You can see clearly how the reject, middlings, and clean coal are separated.

FGX has a brand new Youtube channel with tons of videos showing FGX technology at work. You can see coal tested from many different regions in the US, as well as other countries around the world. Be sure to [check it out](#) and share our videos with your friends!

## FGX Testing Schedule Doesn't Slow Down

FGX SepTech has continued testing a wide variety of coal from different regions in the United States and different countries. Some tests are conducted at our headquarters in Lexington, KY with others being held at the mine site with our mobile testing unit (pictured above left). If you are interested in having your coal tested with FGX contact us today!

## FGX Attends the 2016 Friends of Coal Golf Open

FGX had a great time attending the 2016 Friends of Coal Golf Open for the Illinois Coal Basin on Friday, June 3 at the Owensboro Country Club Golf Course. We sponsored a hole during the tournament and raffled off a \$100 gift card to the Pro Shop. This was a great event for people in the industry to get together and enjoy a day of golf.

## Dr. Parekh Speaks at Coal Association of Canada Conference

FGX's Senior Engineer, Dr. B.K. Parekh, spoke at the Coal Association of Canada's Annual Conference. The conference was held in Vancouver June 8th-10th. We are pleased that Dr. Parekh had the opportunity to present on FGX dry coal processing technology. Be sure to check our newsletter to find out where Dr. Parekh will be speaking next!

## Have You Seen Our New Look?

FGX online has a new look, [www.fgxseptechnology.com](http://www.fgxseptechnology.com)! Besides a stunning new design, it is also optimized for mobile devices and tablets so you can access it on any device. Our online [Information Library](#) is a great resource for learning more about FGX technology. Make sure you sign up with your [email](#) to receive the latest updates from our blog!

## FGX Attends the 2016 Friends of Coal Golf Open

FGX had a great time attending the 2016 Friends of Coal Golf Open for the Illinois Coal Basin on Friday, June 3 at the Owensboro Country Club Golf Course. We sponsored a hole during the tournament and raffled off a \$100 gift card to the Pro Shop. This was a great event for people in the industry to get together and enjoy a day of golf.

## Dr. Parekh Speaks at Coal Association of Canada Conference

FGX's Senior Engineer, Dr. B.K. Parekh, spoke at the Coal Association of Canada's Annual Conference. The conference was held in Vancouver June 8th-10th. We are pleased that Dr. Parekh had the opportunity to present on FGX dry coal processing technology. Be sure to check our newsletter to find out where Dr. Parekh will be speaking next!

## Have You Seen Our New Look?

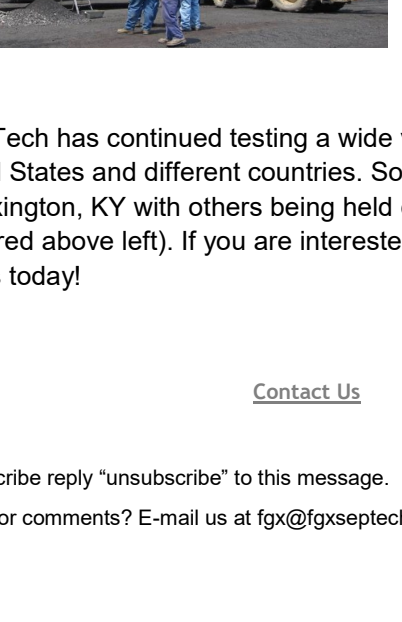

FGX online has a new look, [www.fgxseptechnology.com](http://www.fgxseptechnology.com)! Besides a stunning new design, it is also optimized for mobile devices and tablets so you can access it on any device. Our online [Information Library](#) is a great resource for learning more about FGX technology. Make sure you sign up with your [email](#) to receive the latest updates from our blog!

## FGX Goes Out West

FGX just returned from the [Rocky Mountain Coal Mining Institute Annual Conference](#) in Steamboat Springs, Colorado. The event took place Sunday June 26th through Tuesday June 28th. As with any RMCMI event, we had a great time and can't wait for the next one!

## FGX on Youtube - Check It Out!

FGX has a brand new Youtube channel with tons of videos showing FGX technology at work. You can see coal tested from many different regions in the US, as well as other countries around the world. Be sure to [check it out](#) and share our videos with your friends!

Above, the table distribution of an FGX plant is shown. You can see clearly how the reject, middlings, and clean coal are separated.

## FGX Testing Schedule Doesn't Slow Down

FGX SepTech has continued testing a wide variety of coal from different regions in the United States and different countries. Some tests are conducted at our headquarters in Lexington, KY with others being held at the mine site with our mobile testing unit (pictured above left). If you are interested in having your coal tested with FGX contact us today!

## FGX Attends the 2016 Friends of Coal Golf Open

FGX had a great time attending the 2016 Friends of Coal Golf Open for the Illinois Coal Basin on Friday, June 3 at the Owensboro Country Club Golf Course. We sponsored a hole during the tournament and raffled off a \$100 gift card to the Pro Shop. This was a great event for people in the industry to get together and enjoy a day of golf.

## Dr. Parekh Speaks at Coal Association of Canada Conference

FGX's Senior Engineer, Dr. B.K. Parekh, spoke at the Coal Association of Canada's Annual Conference. The conference was held in Vancouver June 8th-10th. We are pleased that Dr. Parekh had the opportunity to present on FGX dry coal processing technology. Be sure to check our newsletter to find out where Dr. Parekh will be speaking next!

## Have You Seen Our New Look?

FGX online has a new look, [www.fgxseptechnology.com](http://www.fgxseptechnology.com)! Besides a stunning new design, it is also optimized for mobile devices and tablets so you can access it on any device. Our online [Information Library](#) is a great resource for learning more about FGX technology. Make sure you sign up with your [email](#) to receive the latest updates from our blog!

## FGX Goes Out West

FGX just returned from the [Rocky Mountain Coal Mining Institute Annual Conference](#) in Steamboat Springs, Colorado. The event took place Sunday June 26th through Tuesday June 28th. As with any RMCMI event, we had a great time and can't wait for the next one!

## FGX on Youtube - Check It Out!

Our online [Information Library](#) is a great resource for learning more about FGX technology. Make sure you sign up with your [email](#) to receive the latest updates from our blog!

## FGX Goes Out West

FGX just returned from the [Rocky Mountain Coal Mining Institute Annual Conference](#) in Steamboat Springs, Colorado. The event took place Sunday June 26th through Tuesday June 28th. As with any RMCMI event, we had a great time and can't wait for the next one!

## FGX on Youtube - Check It Out!

FGX has a brand new Youtube channel with tons of videos showing FGX technology at work. You can see coal tested from many different regions in the US, as well as other countries around the world. Be sure to [check it out](#) and share our videos with your friends!

Above, the table distribution of an FGX plant is shown. You can see clearly how the reject, middlings, and clean coal are separated.

## FGX Testing Schedule Doesn't Slow Down

FGX SepTech has continued testing a wide variety of coal from different regions in the United States and different countries. Some tests are conducted at our headquarters in Lexington, KY with others being held at the mine site with our mobile testing unit (pictured above left). If you are interested in having your coal tested with FGX contact us today!

## FGX Attends the 2016 Friends of Coal Golf Open

FGX had a great time attending the 2016 Friends of Coal Golf Open for the Illinois Coal Basin on Friday, June 3 at the Owensboro Country Club Golf Course. We sponsored a hole during the tournament and raffled off a \$100 gift card to the Pro Shop. This was a great event for people in the industry to get together and enjoy a day of golf.

## Dr. Parekh Speaks at Coal Association of Canada Conference

FGX's Senior Engineer, Dr. B.K. Parekh, spoke at the Coal Association of Canada's Annual Conference. The conference was held in Vancouver June 8th-10th. We are pleased that Dr. Parekh had the opportunity to present on FGX dry coal processing technology. Be sure to check our newsletter to find out where Dr. Parekh will be speaking next!

## FGX Attends the 2016 Friends of Coal Golf Open

FGX had a great time attending the 2016 Friends of Coal Golf Open for the Illinois Coal Basin on Friday, June 3 at the Owensboro Country Club Golf Course. We sponsored a hole during the tournament and raffled off a \$100 gift card to the Pro Shop. This was a great event for people in the industry to get together and enjoy a day of golf.

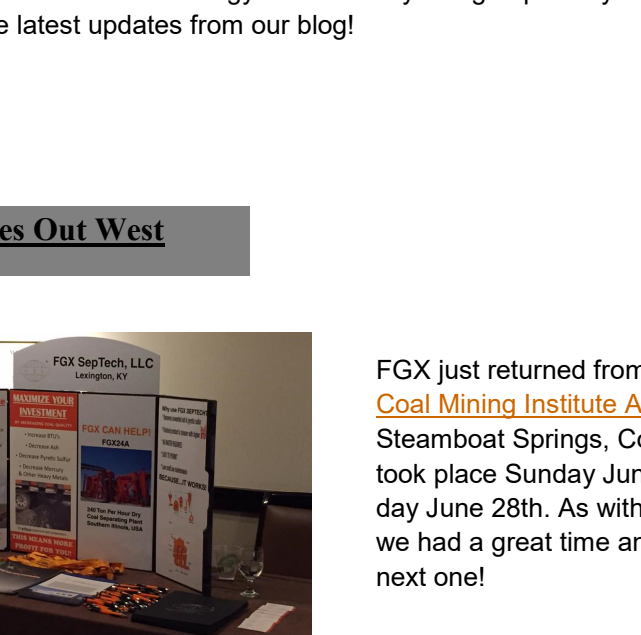

## Dr. Parekh Speaks at Coal Association of Canada Conference

FGX's Senior Engineer, Dr. B.K. Parekh, spoke at the Coal Association of Canada's Annual Conference. The conference was held in Vancouver June 8th-10th. We are pleased that Dr. Parekh had the opportunity to present on FGX dry coal processing technology. Be sure to check our newsletter to find out where Dr. Parekh will be speaking next!

## Have You Seen Our New Look?

FGX online has a new look, [www.fgxseptechnology.com](http://www.fgxseptechnology.com)! Besides a stunning new design, it is also optimized for mobile devices and tablets so you can access it on any device. Our online [Information Library](#) is a great resource for learning more about FGX technology. Make sure you sign up with your [email](#) to receive the latest updates from our blog!

## FGX Goes Out West

FGX just returned from the [Rocky Mountain Coal Mining Institute Annual Conference](#) in Steamboat Springs, Colorado. The event took place Sunday June 26th through Tuesday June 28th. As with any RMCMI event, we had a great time and can't wait for the next one!

## FGX on Youtube - Check It Out!

FGX has a brand new Youtube channel with tons of videos showing FGX technology at work. You can see coal tested from many different regions in the US, as well as other countries around the world. Be sure to [check it out](#) and share our videos with your friends!

Above, the table distribution of an FGX plant is shown. You can see clearly how the reject, middlings, and clean coal are separated.

## FGX Testing Schedule Doesn't Slow Down

FGX SepTech has continued testing a wide variety of coal from different regions in the United States and different countries. Some tests are conducted at our headquarters in Lexington, KY with others being held at the mine site with our mobile testing unit (pictured above left). If you are interested in having your coal tested with FGX contact us today!

## FGX on Youtube - Check It Out!

FGX has a brand new Youtube channel with tons of videos showing FGX technology at work. You can see coal tested from many different regions in the US, as well as other countries around the world. Be sure to [check it out](#) and share our videos with your friends!

Above, the table distribution of an FGX plant is shown. You can see clearly how the reject, middlings, and clean coal are separated.

## FGX Testing Schedule Doesn't Slow Down

FGX SepTech has continued testing a wide variety of coal from different regions in the United States and different countries. Some tests are conducted at our headquarters in Lexington, KY with others being held at the mine site with our mobile testing unit (pictured above left). If you are interested in having your coal tested with FGX contact us today!

## FGX Attends the 2016 Friends of Coal Golf Open

FGX had a great time attending the 2016 Friends of Coal Golf Open for the Illinois Coal Basin on Friday, June 3 at the Owensboro Country Club Golf Course. We sponsored a hole during the tournament and raffled off a \$100 gift card to the Pro Shop. This was a great event for people in the industry to get together and enjoy a day of golf.

## Dr. Parekh Speaks at Coal Association of Canada Conference

FGX's Senior Engineer, Dr. B.K. Parekh, spoke at the Coal Association of Canada's Annual Conference. The conference was held in Vancouver June 8th-10th. We are pleased that Dr. Parekh had the opportunity to present on FGX dry coal processing technology. Be sure to check our newsletter to find out where Dr. Parekh will be speaking next!

## Have You Seen Our New Look?

FGX online has a new look, [www.fgxseptechnology.com](http://www.fgxseptechnology.com)! Besides a stunning new design, it is also optimized for mobile devices and tablets so you can access it on any device. Our online [Information Library](#) is a great resource for learning more about FGX technology. Make sure you sign up with your [email](#) to receive the latest updates from our blog!

## FGX Goes Out West

FGX just returned from the [Rocky Mountain Coal Mining Institute Annual Conference](#) in Steamboat Springs, Colorado. The event took place Sunday June 26th through Tuesday June 28th. As with any RMCMI event, we had a great time and can't wait for the next one!

We sponsored a hole during the tournament and raffled off a \$100 gift card to the Pro Shop. This was a great event for people in the industry to get together and enjoy a day of golf.

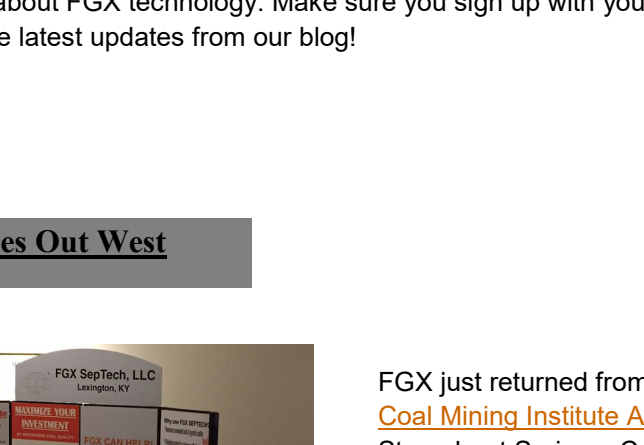

## Dr. Parekh Speaks at Coal Association of Canada Conference

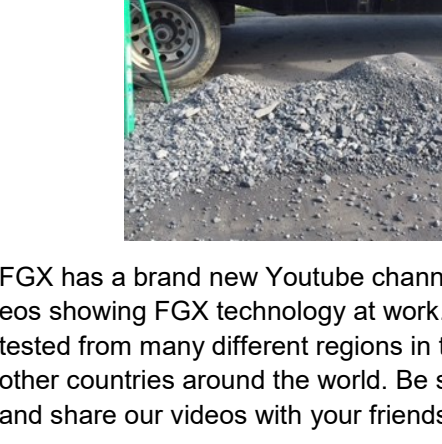

FGX's Senior Engineer, Dr. B.K. Parekh, spoke at the Coal Association of Canada's Annual Conference. The conference was held in Vancouver June 8th-10th. We are pleased that Dr. Parekh had the opportunity to present on FGX dry coal processing technology. Be sure to check our newsletter to find out where Dr. Parekh will be speaking next!

## Have You Seen Our New Look?

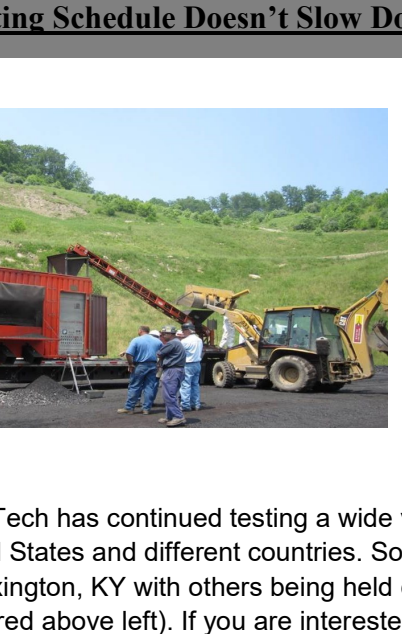

FGX online has a new look, [www.fgxseptechnology.com](http://www.fgxseptechnology.com)! Besides a stunning new design, it is also optimized for mobile devices and tablets so you can access it on any device. Our online [Information Library](#) is a great resource for learning more about FGX technology. Make sure you sign up with your [email](#) to receive the latest updates from our blog!

## FGX Goes Out West

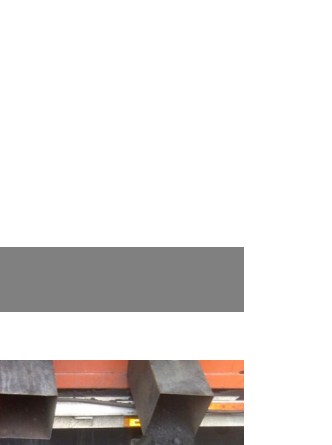

FGX just returned from the [Rocky Mountain Coal Mining Institute Annual Conference](#) in Steamboat Springs, Colorado. The event took place Sunday June 26th through Tuesday June 28th. As with any RMCMI event, we had a great time and can't wait for the next one!

## FGX on Youtube - Check It Out!

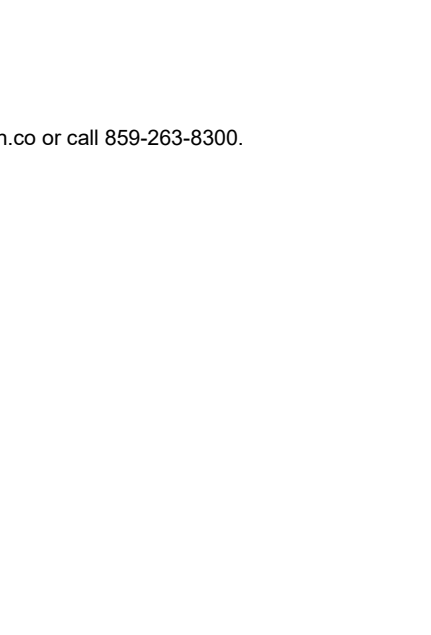

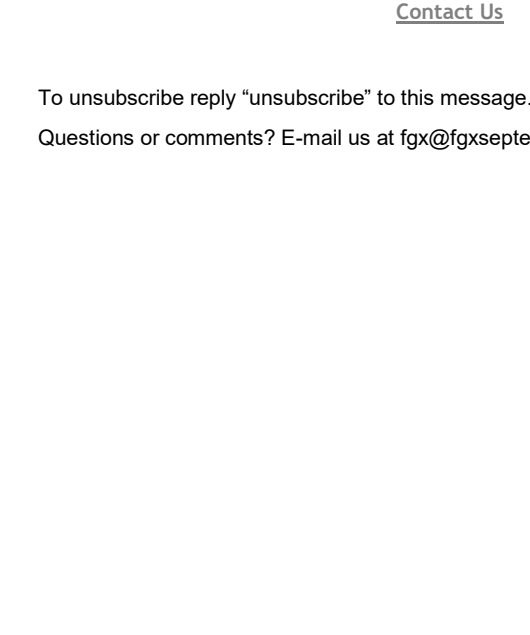

FGX has a brand new Youtube channel with tons of videos showing FGX technology at work. You can see coal tested from many different regions in the US, as well as other countries around the world. Be sure to [check it out](#) and share our videos with your friends!

Above, the table distribution of an FGX plant is shown. You can see clearly how the reject, middlings, and clean coal are separated.

## FGX Testing Schedule Doesn't Slow Down

FGX SepTech has continued testing a wide variety of coal from different regions in the United States and different countries. Some tests are conducted at our headquarters in Lexington, KY with others being held at the mine site with our mobile testing unit (pictured above left). If you are interested in having your coal tested with FGX contact us today!

## FGX Attends the 2016 Friends of Coal Golf Open

FGX had a great time attending the 2016 Friends of Coal Golf Open for the Illinois Coal Basin on Friday, June 3 at the Owensboro Country Club Golf Course. We sponsored a hole during the tournament and raffled off a \$100 gift card to the Pro Shop. This was a great event for people in the industry to get together and enjoy a day of golf.

## Dr. Parekh Speaks at Coal Association of Canada Conference

FGX's Senior Engineer, Dr. B.K. Parekh, spoke at the Coal Association of Canada's Annual Conference. The conference was held in Vancouver June 8th-10th. We are pleased that Dr. Parekh had the opportunity to present on FGX dry coal processing technology. Be sure to check our newsletter to find out where Dr. Parekh will be speaking next!

## Have You Seen Our New Look?

FGX online has a new look, [www.fgxseptechnology.com](http://www.fgxseptechnology.com)! Besides a stunning new design, it is also optimized for mobile devices and tablets so you can access it on any device. Our online [Information Library](#) is a great resource for learning more about FGX technology. Make sure you sign up with your [email](#) to receive the latest updates from our blog!

## FGX Goes Out West

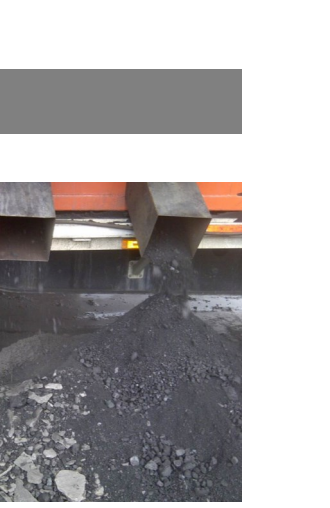

FGX just returned from the [Rocky Mountain Coal Mining Institute Annual Conference](#) in Steamboat Springs, Colorado. The event took place Sunday June 26th through Tuesday June 28th. As with any RMCMI event, we had a great time and can't wait for the next one!

## FGX on Youtube - Check It Out!

FGX has a brand new Youtube channel with tons of videos showing FGX technology at work. You can see coal tested from many different regions in the US, as well as other countries around the world. Be sure to [check it out](#) and share our videos with your friends!

Above, the table distribution of an FGX plant is shown. You can see clearly how the reject, middlings, and clean coal are separated.

FGX just returned from the [Rocky Mountain Coal Mining Institute Annual Conference](#) in Steamboat Springs, Colorado. The event took place Sunday June 26th through Tuesday June 28th. As with any RCMCI event, we had a great time and can't wait for the next one!

## FGX on Youtube - Check It Out!

FGX has a brand new Youtube channel with tons of videos showing FGX technology at work. You can see coal tested from many different regions in the US, as well as other countries around the world. Be sure to [check it out](#) and share our videos with your friends!

Above, the table distribution of an FGX plant is shown. You can see clearly how the reject, middlings, and clean coal are separated.

## FGX Testing Schedule Doesn't Slow Down

FGX SepTech has continued testing a wide variety of coal from different regions in the United States and different countries. Some tests are conducted at our headquarters in Lexington, KY with others being held at the mine site with our mobile testing unit (pictured above left). If you are interested in having your coal tested with FGX contact us today!

## FGX Attends the 2016 Friends of Coal Golf Open

FGX had a great time attending the 2016 Friends of Coal Golf Open for the Illinois Coal Basin on Friday, June 3 at the Owensboro Country Club Golf Course. We sponsored a hole during the tournament and raffled off a \$100 gift card to the Pro Shop. This was a great event for people in the industry to get together and enjoy a day of golf.

## Dr. Parekh Speaks at Coal Association of Canada Conference

FGX's Senior Engineer, Dr. B.K. Parekh, spoke at the Coal Association of Canada's Annual Conference. The conference was held in Vancouver June 8th-10th. We are pleased that Dr. Parekh had the opportunity to present on FGX dry coal processing technology. Be sure to check our newsletter to find out where Dr. Parekh will be speaking next!

## Have You Seen Our New Look?

FGX online has a new look, [www.fgxseptechnology.com](http://www.fgxseptechnology.com)! Besides a stunning new design, it is also optimized for mobile devices and tablets so you can access it on any device. Our online [Information Library](#) is a great resource for learning more about FGX technology. Make sure you sign up with your [email](#) to receive the latest updates from our blog!

FGX's Senior Engineer, Dr. B.K. Parekh, spoke at the Coal Association of Canada's Annual Conference. The conference was held in Vancouver June 8th-10th. We are pleased that Dr. Parekh had the opportunity to present on FGX dry coal processing technology. Be sure to check our newsletter to find out where Dr. Parekh will be speaking next!

## Have You Seen Our New Look?

FGX online has a new look, [www.fgxseptechnology.com](http://www.fgxseptechnology.com)! Besides a stunning new design, it is also optimized for mobile devices and tablets so you can access it on any device. Our online [Information Library](#) is a great resource for learning more about FGX technology. Make sure you sign up with your [email](#) to receive the latest updates from our blog!

## FGX Goes Out West

FGX just returned from the [Rocky Mountain Coal Mining Institute Annual Conference](#) in Steamboat Springs, Colorado. The event took place Sunday June 26th through Tuesday June 28th. As with any RMCMI event, we had a great time and can't wait for the next one!

## FGX on Youtube - Check It Out!

FGX has a brand new Youtube channel with tons of videos showing FGX technology at work. You can see coal tested from many different regions in the US, as well as other countries around the world. Be sure to [check it out](#) and share our videos with your friends!

Above, the table distribution of an FGX plant is shown. You can see clearly how the reject, middlings, and clean coal are separated.

## FGX Testing Schedule Doesn't Slow Down

FGX SepTech has continued testing a wide variety of coal from different regions in the United States and different countries. Some tests are conducted at our headquarters in Lexington, KY with others being held at the mine site with our mobile testing unit (pictured above left). If you are interested in having your coal tested with FGX contact us today!

## FGX Attends the 2016 Friends of Coal Golf Open

FGX had a great time attending the 2016 Friends of Coal Golf Open for the Illinois Coal Basin on Friday, June 3 at the Owensboro Country Club Golf Course. We sponsored a hole during the tournament and raffled off a \$100 gift card to the Pro Shop. This was a great event for people in the industry to get together and enjoy a day of golf.

## FGX Attends the 2016 Friends of Coal Golf Open

FGX had a great time attending the 2016 Friends of Coal Golf Open for the Illinois Coal Basin on Friday, June 3 at the Owensboro Country Club Golf Course. We sponsored a hole during the tournament and raffled off a \$100 gift card to the Pro Shop. This was a great event for people in the industry to get together and enjoy a day of golf.

## Dr. Parekh Speaks at Coal Association of Canada Conference

FGX's Senior Engineer, Dr. B.K. Parekh, spoke at the Coal Association of Canada's Annual Conference. The conference was held in Vancouver June 8th-10th. We are pleased that Dr. Parekh had the opportunity to present on FGX dry coal processing technology. Be sure to check our newsletter to find out where Dr. Parekh will be speaking next!

## Have You Seen Our New Look?

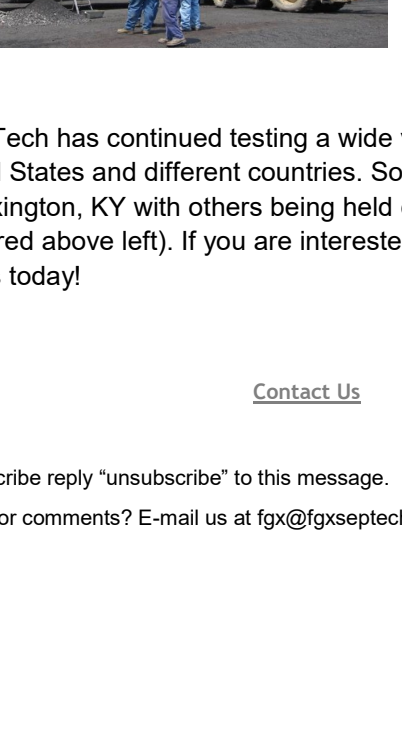

FGX online has a new look, [www.fgxseptechnology.com](http://www.fgxseptechnology.com)! Besides a stunning new design, it is also optimized for mobile devices and tablets so you can access it on any device. Our online [Information Library](#) is a great resource for learning more about FGX technology. Make sure you sign up with your [email](#) to receive the latest updates from our blog!

## FGX Goes Out West

FGX just returned from the [Rocky Mountain Coal Mining Institute Annual Conference](#) in Steamboat Springs, Colorado. The event took place Sunday June 26th through Tuesday June 28th. As with any RMCMI event, we had a great time and can't wait for the next one!

## FGX on Youtube - Check It Out!

FGX has a brand new Youtube channel with tons of videos showing FGX technology at work. You can see coal tested from many different regions in the US, as well as other countries around the world. Be sure to [check it out](#) and share our videos with your friends!

Above, the table distribution of an FGX plant is shown. You can see clearly how the reject, middlings, and clean coal are separated.

## FGX Testing Schedule Doesn't Slow Down

FGX SepTech has continued testing a wide variety of coal from different regions in the United States and different countries. Some tests are conducted at our headquarters in Lexington, KY with others being held at the mine site with our mobile testing unit (pictured above left). If you are interested in having your coal tested with FGX contact us today!

FGX just returned from the [Rocky Mountain Coal Mining Institute Annual Conference](#) in Steamboat Springs, Colorado. The event took place Sunday June 26th through Tuesday June 28th. As with any RCMCI event, we had a great time and can't wait for the next one!

## FGX on Youtube - Check It Out!

FGX has a brand new Youtube channel with tons of videos showing FGX technology at work. You can see coal tested from many different regions in the US, as well as other countries around the world. Be sure to [check it out](#) and share our videos with your friends!

Above, the table distribution of an FGX plant is shown. You can see clearly how the reject, middlings, and clean coal are separated.

## FGX Testing Schedule Doesn't Slow Down

FGX SepTech has continued testing a wide variety of coal from different regions in the United States and different countries. Some tests are conducted at our headquarters in Lexington, KY with others being held at the mine site with our mobile testing unit (pictured above left). If you are interested in having your coal tested with FGX contact us today!

## FGX Attends the 2016 Friends of Coal Golf Open

FGX had a great time attending the 2016 Friends of Coal Golf Open for the Illinois Coal Basin on Friday, June 3 at the Owensboro Country Club Golf Course. We sponsored a hole during the tournament and raffled off a \$100 gift card to the Pro Shop. This was a great event for people in the industry to get together and enjoy a day of golf.

## Dr. Parekh Speaks at Coal Association of Canada Conference

FGX's Senior Engineer, Dr. B.K. Parekh, spoke at the Coal Association of Canada's Annual Conference. The conference was held in Vancouver June 8th-10th. We are pleased that Dr. Parekh had the opportunity to present on FGX dry coal processing technology. Be sure to check our newsletter to find out where Dr. Parekh will be speaking next!

## Have You Seen Our New Look?

FGX online has a new look, [www.fgxseptechnology.com](http://www.fgxseptechnology.com)! Besides a stunning new design, it is also optimized for mobile devices and tablets so you can access it on any device. Our online [Information Library](#) is a great resource for learning more about FGX technology. Make sure you sign up with your [email](#) to receive the latest updates from our blog!

## Have You Seen Our New Look?

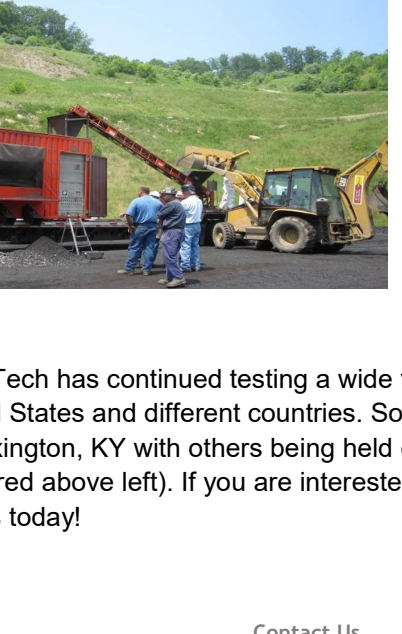

FGX online has a new look, [www.fgxseptechnology.com](http://www.fgxseptechnology.com)! Besides a stunning new design, it is also optimized for mobile devices and tablets so you can access it on any device. Our online [Information Library](#) is a great resource for learning more about FGX technology. Make sure you sign up with your [email](#) to receive the latest updates from our blog!

## FGX Goes Out West

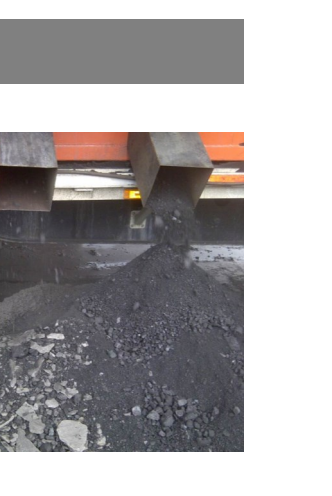

FGX just returned from the [Rocky Mountain Coal Mining Institute Annual Conference](#) in Steamboat Springs, Colorado. The event took place Sunday June 26th through Tuesday June 28th. As with any RMCMI event, we had a great time and can't wait for the next one!

## FGX on Youtube - Check It Out!

FGX has a brand new Youtube channel with tons of videos showing FGX technology at work. You can see coal tested from many different regions in the US, as well as other countries around the world. Be sure to [check it out](#) and share our videos with your friends!

Above, the table distribution of an FGX plant is shown. You can see clearly how the reject, middlings, and clean coal are separated.

## FGX Testing Schedule Doesn't Slow Down

FGX SepTech has continued testing a wide variety of coal from different regions in the United States and different countries. Some tests are conducted at our headquarters in Lexington, KY with others being held at the mine site with our mobile testing unit (pictured above left). If you are interested in having your coal tested with FGX contact us today!

## FGX Attends the 2016 Friends of Coal Golf Open

FGX had a great time attending the 2016 Friends of Coal Golf Open for the Illinois Coal Basin on Friday, June 3 at the Owensboro Country Club Golf Course. We sponsored a hole during the tournament and raffled off a \$100 gift card to the Pro Shop. This was a great event for people in the industry to get together and enjoy a day of golf.

## Dr. Parekh Speaks at Coal Association of Canada Conference

FGX's Senior Engineer, Dr. B.K. Parekh, spoke at the Coal Association of Canada's Annual Conference. The conference was held in Vancouver June 8th-10th. We are pleased that Dr. Parekh had the opportunity to present on FGX dry coal processing technology. Be sure to check our newsletter to find out where Dr. Parekh will be speaking next!

## FGX Attends the 2016 Friends of Coal Golf Open

FGX had a great time attending the 2016 Friends of Coal Golf Open for the Illinois Coal Basin on Friday, June 3 at the Owensboro Country Club Golf Course. We sponsored a hole during the tournament and raffled off a \$100 gift card to the Pro Shop. This was a great event for people in the industry to get together and enjoy a day of golf.

## Dr. Parekh Speaks at Coal Association of Canada Conference

FGX's Senior Engineer, Dr. B.K. Parekh, spoke at the Coal Association of Canada's Annual Conference. The conference was held in Vancouver June 8th-10th. We are pleased that Dr. Parekh had the opportunity to present on FGX dry coal processing technology. Be sure to check our newsletter to find out where Dr. Parekh will be speaking next!

## Have You Seen Our New Look?

FGX online has a new look, [www.fgxseptechnology.com](http://www.fgxseptechnology.com)! Besides a stunning new design, it is also optimized for mobile devices and tablets so you can access it on any device. Our online [Information Library](#) is a great resource for learning more about FGX technology. Make sure you sign up with your [email](#) to receive the latest updates from our blog!

## FGX Goes Out West

FGX just returned from the [Rocky Mountain Coal Mining Institute Annual Conference](#) in Steamboat Springs, Colorado. The event took place Sunday June 26th through Tuesday June 28th. As with any RMCMI event, we had a great time and can't wait for the next one!

## FGX on Youtube - Check It Out!

FGX has a brand new Youtube channel with tons of videos showing FGX technology at work. You can see coal tested from many different regions in the US, as well as other countries around the world. Be sure to [check it out](#) and share our videos with your friends!

Above, the table distribution of an FGX plant is shown. You can see clearly how the reject, middlings, and clean coal are separated.

## FGX Testing Schedule Doesn't Slow Down

FGX SepTech has continued testing a wide variety of coal from different regions in the United States and different countries. Some tests are conducted at our headquarters in Lexington, KY with others being held at the mine site with our mobile testing unit (pictured above left). If you are interested in having your coal tested with FGX contact us today!

## FGX Attends the 2016 Friends of Coal Golf Open

FGX had a great time attending the 2016 Friends of Coal Golf Open for the Illinois Coal Basin on Friday, June 3 at the Owensboro Country Club Golf Course. We sponsored a hole during the tournament and raffled off a \$100 gift card to the Pro Shop. This was a great event for people in the industry to get together and enjoy a day of golf.

## Dr. Parekh Speaks at Coal Association of Canada Conference

FGX's Senior Engineer, Dr. B.K. Parekh, spoke at the Coal Association of Canada's Annual Conference. The conference was held in Vancouver June 8th-10th. We are pleased that Dr. Parekh had the opportunity to present on FGX dry coal processing technology. Be sure to check our newsletter to find out where Dr. Parekh will be speaking next!

## Have You Seen Our New Look?

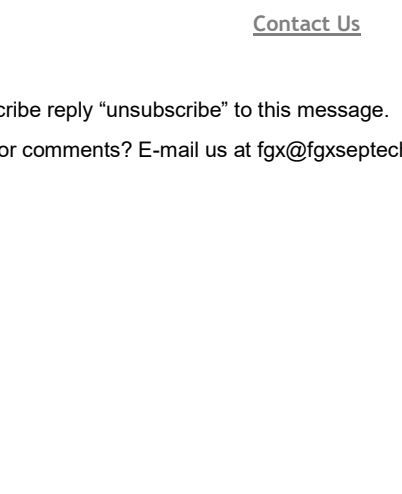

FGX online has a new look, [www.fgxseptechnology.com](http://www.fgxseptechnology.com)! Besides a stunning new design, it is also optimized for mobile devices and tablets so you can access it on any device. Our online [Information Library](#) is a great resource for learning more about FGX technology. Make sure you sign up with your [email](#) to receive the latest updates from our blog!

## FGX Goes Out West

FGX just returned from the [Rocky Mountain Coal Mining Institute Annual Conference](#) in Steamboat Springs, Colorado. The event took place Sunday June 26th through Tuesday June 28th. As with any RMCMI event, we had a great time and can't wait for the next one!

## FGX on Youtube - Check It Out!

FGX has a brand new Youtube channel with tons of videos showing FGX technology at work. You can see coal tested from many different regions in the US, as well as other countries around the world. Be sure to [check it out](#) and share our videos with your friends!

Above, the table distribution of an FGX plant is shown. You can see clearly how the reject, middlings, and clean coal are separated.

## FGX Goes Out West

FGX just returned from the [Rocky Mountain Coal Mining Institute Annual Conference](#) in Steamboat Springs, Colorado. The event took place Sunday June 26th through Tuesday June 28th. As with any RMCMI event, we had a great time and can't wait for the next one!

## FGX on Youtube - Check It Out!

FGX has a brand new Youtube channel with tons of videos showing FGX technology at work. You can see coal tested from many different regions in the US, as well as other countries around the world. Be sure to [check it out](#) and share our videos with your friends!

Above, the table distribution of an FGX plant is shown. You can see clearly how the reject, middlings, and clean coal are separated.

## FGX Testing Schedule Doesn't Slow Down

FGX SepTech has continued testing a wide variety of coal from different regions in the United States and different countries. Some tests are conducted at our headquarters in Lexington, KY with others being held at the mine site with our mobile testing unit (pictured above left). If you are interested in having your coal tested with FGX contact us today!

## FGX Attends the 2016 Friends of Coal Golf Open

FGX had a great time attending the 2016 Friends of Coal Golf Open for the Illinois Coal Basin on Friday, June 3 at the Owensboro Country Club Golf Course. We sponsored a hole during the tournament and raffled off a \$100 gift card to the Pro Shop. This was a great event for people in the industry to get together and enjoy a day of golf.

## Dr. Parekh Speaks at Coal Association of Canada Conference

FGX's Senior Engineer, Dr. B.K. Parekh, spoke at the Coal Association of Canada's Annual Conference. The conference was held in Vancouver June 8th-10th. We are pleased that Dr. Parekh had the opportunity to present on FGX dry coal processing technology. Be sure to check our newsletter to find out where Dr. Parekh will be speaking next!

## Have You Seen Our New Look?

FGX online has a new look, [www.fgxseptechnology.com](http://www.fgxseptechnology.com)! Besides a stunning new design, it is also optimized for mobile devices and tablets so you can access it on any device. Our online [Information Library](#) is a great resource for learning more about FGX technology. Make sure you sign up with your [email](#) to receive the latest updates from our blog!

We are pleased that Dr. Parekh had the opportunity to present on FGX dry coal processing technology. Be sure to check our newsletter to find out where Dr. Parekh will be speaking next!

## Have You Seen Our New Look?

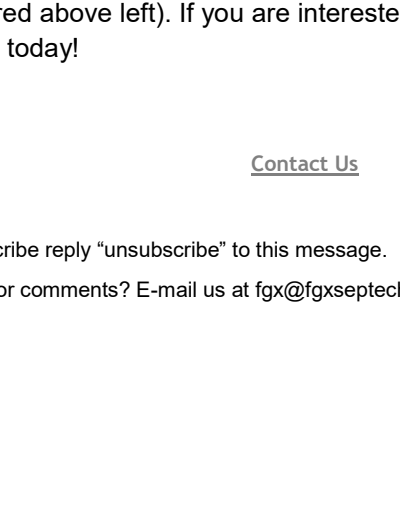

FGX online has a new look, [www.fgxseptechnology.com](http://www.fgxseptechnology.com)! Besides a stunning new design, it is also optimized for mobile devices and tablets so you can access it on any device. Our online [Information Library](#) is a great resource for learning more about FGX technology. Make sure you sign up with your [email](#) to receive the latest updates from our blog!

## FGX Goes Out West

FGX just returned from the [Rocky Mountain Coal Mining Institute Annual Conference](#) in Steamboat Springs, Colorado. The event took place Sunday June 26th through Tuesday June 28th. As with any RMCMI event, we had a great time and can't wait for the next one!

## FGX on Youtube - Check It Out!

FGX has a brand new Youtube channel with tons of videos showing FGX technology at work. You can see coal tested from many different regions in the US, as well as other countries around the world. Be sure to [check it out](#) and share our videos with your friends!

Above, the table distribution of an FGX plant is shown. You can see clearly how the reject, middlings, and clean coal are separated.

## FGX Testing Schedule Doesn't Slow Down

FGX SepTech has continued testing a wide variety of coal from different regions in the United States and different countries. Some tests are conducted at our headquarters in Lexington, KY with others being held at the mine site with our mobile testing unit (pictured above left). If you are interested in having your coal tested with FGX contact us today!

## FGX Attends the 2016 Friends of Coal Golf Open

FGX had a great time attending the 2016 Friends of Coal Golf Open for the Illinois Coal Basin on Friday, June 3 at the Owensboro Country Club Golf Course. We sponsored a hole during the tournament and raffled off a \$100 gift card to the Pro Shop. This was a great event for people in the industry to get together and enjoy a day of golf.

## Dr. Parekh Speaks at Coal Association of Canada Conference

FGX's Senior Engineer, Dr. B.K. Parekh, spoke at the Coal Association of Canada's Annual Conference. The conference was held in Vancouver June 8th-10th. We are pleased that Dr. Parekh had the opportunity to present on FGX dry coal processing technology. Be sure to check our newsletter to find out where Dr. Parekh will be speaking next!

## FGX Attends the 2016 Friends of Coal Golf Open

FGX had a great time attending the 2016 Friends of Coal Golf Open for the Illinois Coal Basin on Friday, June 3 at the Owensboro Country Club Golf Course. We sponsored a hole during the tournament and raffled off a \$100 gift card to the Pro Shop. This was a great event for people in the industry to get together and enjoy a day of golf.

## Dr. Parekh Speaks at Coal Association of Canada Conference

FGX's Senior Engineer, Dr. B.K. Parekh, spoke at the Coal Association of Canada's Annual Conference. The conference was held in Vancouver June 8th-10th. We are pleased that Dr. Parekh had the opportunity to present on FGX dry coal processing technology. Be sure to check our newsletter to find out where Dr. Parekh will be speaking next!

## Have You Seen Our New Look?

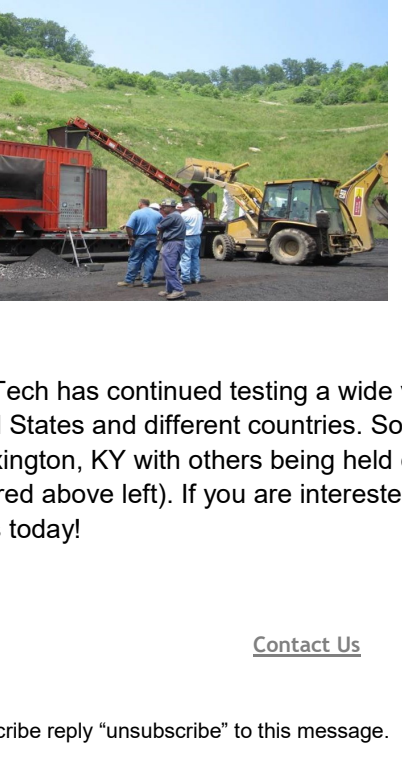

FGX online has a new look, [www.fgxseptechnology.com](http://www.fgxseptechnology.com)! Besides a stunning new design, it is also optimized for mobile devices and tablets so you can access it on any device. Our online [Information Library](#) is a great resource for learning more about FGX technology. Make sure you sign up with your [email](#) to receive the latest updates from our blog!

## FGX Goes Out West

FGX just returned from the [Rocky Mountain Coal Mining Institute Annual Conference](#) in Steamboat Springs, Colorado. The event took place Sunday June 26th through Tuesday June 28th. As with any RMCMI event, we had a great time and can't wait for the next one!

## FGX on Youtube - Check It Out!

FGX has a brand new Youtube channel with tons of videos showing FGX technology at work. You can see coal tested from many different regions in the US, as well as other countries around the world. Be sure to [check it out](#) and share our videos with your friends!

Above, the table distribution of an FGX plant is shown. You can see clearly how the reject, middlings, and clean coal are separated.

## FGX Testing Schedule Doesn't Slow Down

FGX SepTech has continued testing a wide variety of coal from different regions in the United States and different countries. Some tests are conducted at our headquarters in Lexington, KY with others being held at the mine site with our mobile testing unit (pictured above left). If you are interested in having your coal tested with FGX contact us today!

## FGX on Youtube - Check It Out!

FGX has a brand new Youtube channel with tons of videos showing FGX technology at work. You can see coal tested from many different regions in the US, as well as other countries around the world. Be sure to [check it out](#) and share our videos with your friends!

Above, the table distribution of an FGX plant is shown. You can see clearly how the reject, middlings, and clean coal are separated.

## FGX Testing Schedule Doesn't Slow Down

FGX SepTech has continued testing a wide variety of coal from different regions in the United States and different countries. Some tests are conducted at our headquarters in Lexington, KY with others being held at the mine site with our mobile testing unit (pictured above left). If you are interested in having your coal tested with FGX contact us today!

## FGX Attends the 2016 Friends of Coal Golf Open

FGX had a great time attending the 2016 Friends of Coal Golf Open for the Illinois Coal Basin on Friday, June 3 at the Owensboro Country Club Golf Course. We sponsored a hole during the tournament and raffled off a \$100 gift card to the Pro Shop. This was a great event for people in the industry to get together and enjoy a day of golf.

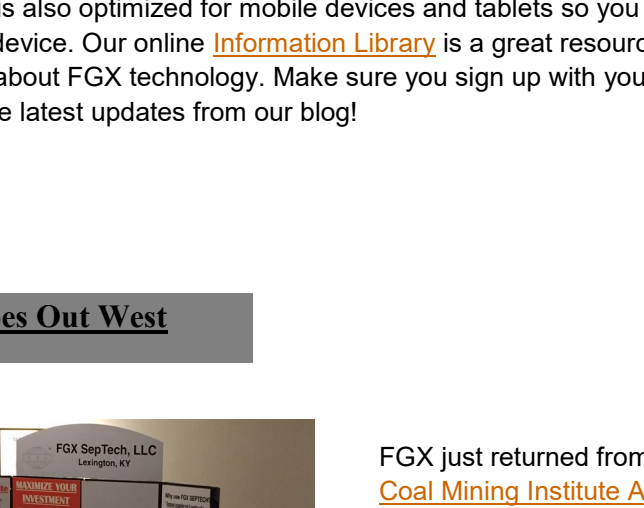

## Dr. Parekh Speaks at Coal Association of Canada Conference

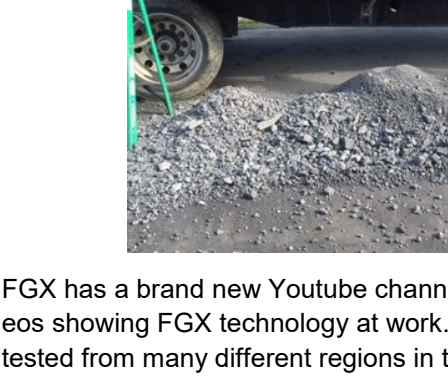

FGX's Senior Engineer, Dr. B.K. Parekh, spoke at the Coal Association of Canada's Annual Conference. The conference was held in Vancouver June 8th-10th. We are pleased that Dr. Parekh had the opportunity to present on FGX dry coal processing technology. Be sure to check our newsletter to find out where Dr. Parekh will be speaking next!

## Have You Seen Our New Look?

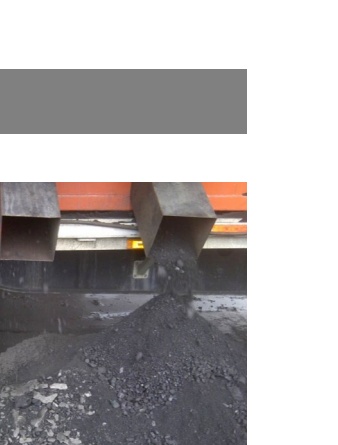

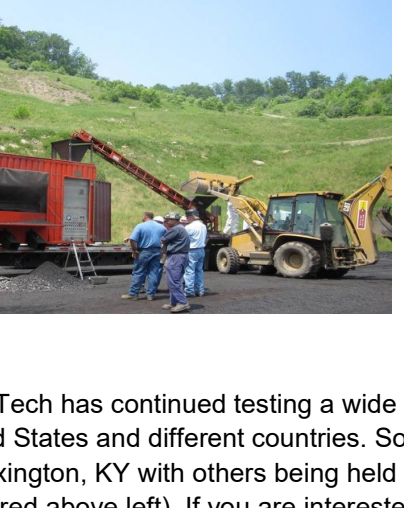

FGX online has a new look, [www.fgxseptechnology.com](http://www.fgxseptechnology.com)! Besides a stunning new design, it is also optimized for mobile devices and tablets so you can access it on any device. Our online [Information Library](#) is a great resource for learning more about FGX technology. Make sure you sign up with your [email](#) to receive the latest updates from our blog!

## FGX Goes Out West

FGX just returned from the [Rocky Mountain Coal Mining Institute Annual Conference](#) in Steamboat Springs, Colorado. The event took place Sunday June 26th through Tuesday June 28th. As with any RMCMI event, we had a great time and can't wait for the next one!

We are pleased that Dr. Parekh had the opportunity to present on FGX dry coal processing technology. Be sure to check our newsletter to find out where Dr. Parekh will be speaking next!

## Have You Seen Our New Look?

FGX online has a new look, [www.fgxseptechn.com](http://www.fgxseptechn.com)! Besides a stunning new design, it is also optimized for mobile devices and tablets so you can access it on any device. Our online [Information Library](#) is a great resource for learning more about FGX technology. Make sure you sign up with your [email](#) to receive the latest updates from our blog!

## FGX Goes Out West

FGX just returned from the [Rocky Mountain Coal Mining Institute Annual Conference](#) in Steamboat Springs, Colorado. The event took place Sunday June 26th through Tuesday June 28th. As with any RCMCI event, we had a great time and can't wait for the next one!

## FGX on Youtube - Check It Out!

FGX has a brand new Youtube channel with tons of videos showing FGX technology at work. You can see coal tested from many different regions in the US, as well as other countries around the world. Be sure to [check it out](#) and share our videos with your friends!

Above, the table distribution of an FGX plant is shown. You can see clearly how the reject, middlings, and clean coal are separated.

## FGX Testing Schedule Doesn't Slow Down

FGX SepTech has continued testing a wide variety of coal from different regions in the United States and different countries. Some tests are conducted at our headquarters in Lexington, KY with others being held at the mine site with our mobile testing unit (pictured above left). If you are interested in having your coal tested with FGX contact us today!

## FGX Attends the 2016 Friends of Coal Golf Open

FGX had a great time attending the 2016 Friends of Coal Golf Open for the Illinois Coal Basin on Friday, June 3 at the Owensboro Country Club Golf Course. We sponsored a hole during the tournament and raffled off a \$100 gift card to the Pro Shop. This was a great event for people in the industry to get together and enjoy a day of golf.

## Dr. Parekh Speaks at Coal Association of Canada Conference

FGX's Senior Engineer, Dr. B.K. Parekh, spoke at the Coal Association of Canada's Annual Conference. The conference was held in Vancouver June 8th-10th. We are pleased that Dr. Parekh had the opportunity to present on FGX dry coal processing technology. Be sure to check our newsletter to find out where Dr. Parekh will be speaking next!

## FGX Attends the 2016 Friends of Coal Golf Open

FGX had a great time attending the 2016 Friends of Coal Golf Open for the Illinois Coal Basin on Friday, June 3 at the Owensboro Country Club Golf Course. We sponsored a hole during the tournament and raffled off a \$100 gift card to the Pro Shop. This was a great event for people in the industry to get together and enjoy a day of golf.

## Dr. Parekh Speaks at Coal Association of Canada Conference

FGX's Senior Engineer, Dr. B.K. Parekh, spoke at the Coal Association of Canada's Annual Conference. The conference was held in Vancouver June 8th-10th. We are pleased that Dr. Parekh had the opportunity to present on FGX dry coal processing technology. Be sure to check our newsletter to find out where Dr. Parekh will be speaking next!

## Have You Seen Our New Look?

FGX online has a new look, [www.fgxseptechnology.com](http://www.fgxseptechnology.com)! Besides a stunning new design, it is also optimized for mobile devices and tablets so you can access it on any device. Our online [Information Library](#) is a great resource for learning more about FGX technology. Make sure you sign up with your [email](#) to receive the latest updates from our blog!

## FGX Goes Out West

FGX just returned from the [Rocky Mountain Coal Mining Institute Annual Conference](#) in Steamboat Springs, Colorado. The event took place Sunday June 26th through Tuesday June 28th. As with any RMCMI event, we had a great time and can't wait for the next one!

## FGX on Youtube - Check It Out!

Above, the table distribution of an FGX plant is shown. You can see clearly how the reject, middlings, and clean coal are separated.

## FGX Testing Schedule Doesn't Slow Down

FGX SepTech has continued testing a wide variety of coal from different regions in the United States and different countries. Some tests are conducted at our headquarters in Lexington, KY with others being held at the mine site with our mobile testing unit (pictured above left). If you are interested in having your coal tested with FGX contact us today!

FGX just returned from the [Rocky Mountain Coal Mining Institute Annual Conference](#) in Steamboat Springs, Colorado. The event took place Sunday June 26th through Tuesday June 28th. As with any RCMCI event, we had a great time and can't wait for the next one!

## FGX on Youtube - Check It Out!

FGX has a brand new Youtube channel with tons of videos showing FGX technology at work. You can see coal tested from many different regions in the US, as well as other countries around the world. Be sure to [check it out](#) and share our videos with your friends!

Above, the table distribution of an FGX plant is shown. You can see clearly how the reject, middlings, and clean coal are separated.

## FGX Testing Schedule Doesn't Slow Down

FGX SepTech has continued testing a wide variety of coal from different regions in the United States and different countries. Some tests are conducted at our headquarters in Lexington, KY with others being held at the mine site with our mobile testing unit (pictured above left). If you are interested in having your coal tested with FGX contact us today!

## FGX Attends the 2016 Friends of Coal Golf Open

FGX had a great time attending the 2016 Friends of Coal Golf Open for the Illinois Coal Basin on Friday, June 3 at the Owensboro Country Club Golf Course. We sponsored a hole during the tournament and raffled off a \$100 gift card to the Pro Shop. This was a great event for people in the industry to get together and enjoy a day of golf.

## Dr. Parekh Speaks at Coal Association of Canada Conference

FGX's Senior Engineer, Dr. B.K. Parekh, spoke at the Coal Association of Canada's Annual Conference. The conference was held in Vancouver June 8th-10th. We are pleased that Dr. Parekh had the opportunity to present on FGX dry coal processing technology. Be sure to check our newsletter to find out where Dr. Parekh will be speaking next!

## Have You Seen Our New Look?

FGX online has a new look, [www.fgxseptechnology.com](http://www.fgxseptechnology.com)! Besides a stunning new design, it is also optimized for mobile devices and tablets so you can access it on any device. Our online [Information Library](#) is a great resource for learning more about FGX technology. Make sure you sign up with your [email](#) to receive the latest updates from our blog!

FGX's Senior Engineer, Dr. B.K. Parekh, spoke at the Coal Association of Canada's Annual Conference. The conference was held in Vancouver June 8th-10th. We are pleased that Dr. Parekh had the opportunity to present on FGX dry coal processing technology. Be sure to check our newsletter to find out where Dr. Parekh will be speaking next!

## Have You Seen Our New Look?

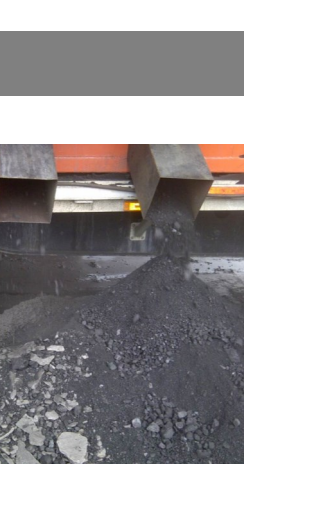

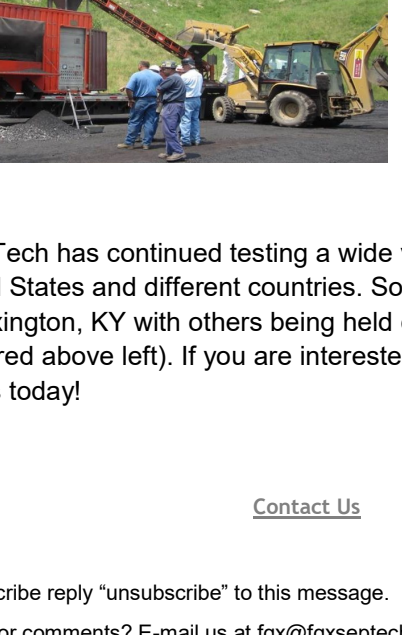

FGX online has a new look, [www.fgxseptechnology.com](http://www.fgxseptechnology.com)! Besides a stunning new design, it is also optimized for mobile devices and tablets so you can access it on any device. Our online [Information Library](#) is a great resource for learning more about FGX technology. Make sure you sign up with your [email](#) to receive the latest updates from our blog!

## FGX Goes Out West

FGX just returned from the [Rocky Mountain Coal Mining Institute Annual Conference](#) in Steamboat Springs, Colorado. The event took place Sunday June 26th through Tuesday June 28th. As with any RMCMI event, we had a great time and can't wait for the next one!

## FGX on Youtube - Check It Out!

Above, the table distribution of an FGX plant is shown. You can see clearly how the reject, middlings, and clean coal are separated.

## FGX Testing Schedule Doesn't Slow Down

FGX SepTech has continued testing a wide variety of coal from different regions in the United States and different countries. Some tests are conducted at our headquarters in Lexington, KY with others being held at the mine site with our mobile testing unit (pictured above left). If you are interested in having your coal tested with FGX contact us today!

## FGX Attends the 2016 Friends of Coal Golf Open

FGX had a great time attending the 2016 Friends of Coal Golf Open for the Illinois Coal Basin on Friday, June 3 at the Owensboro Country Club Golf Course. We sponsored a hole during the tournament and raffled off a \$100 gift card to the Pro Shop. This was a great event for people in the industry to get together and enjoy a day of golf.

## FGX Attends the 2016 Friends of Coal Golf Open

FGX had a great time attending the 2016 Friends of Coal Golf Open for the Illinois Coal Basin on Friday, June 3 at the Owensboro Country Club Golf Course. We sponsored a hole during the tournament and raffled off a \$100 gift card to the Pro Shop. This was a great event for people in the industry to get together and enjoy a day of golf.

## Dr. Parekh Speaks at Coal Association of Canada Conference

FGX's Senior Engineer, Dr. B.K. Parekh, spoke at the Coal Association of Canada's Annual Conference. The conference was held in Vancouver June 8th-10th. We are pleased that Dr. Parekh had the opportunity to present on FGX dry coal processing technology. Be sure to check our newsletter to find out where Dr. Parekh will be speaking next!

## Have You Seen Our New Look?

FGX online has a new look, [www.fgxseptechnology.com](http://www.fgxseptechnology.com)! Besides a stunning new design, it is also optimized for mobile devices and tablets so you can access it on any device. Our online [Information Library](#) is a great resource for learning more about FGX technology. Make sure you sign up with your [email](#) to receive the latest updates from our blog!

## FGX Goes Out West

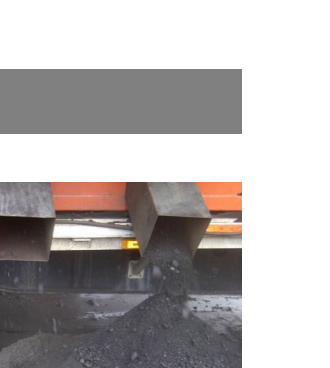

FGX just returned from the [Rocky Mountain Coal Mining Institute Annual Conference](#) in Steamboat Springs, Colorado. The event took place Sunday June 26th through Tuesday June 28th. As with any RMCMI event, we had a great time and can't wait for the next one!

## FGX on Youtube - Check It Out!

FGX has a brand new Youtube channel with tons of videos showing FGX technology at work. You can see coal tested from many different regions in the US, as well as other countries around the world. Be sure to [check it out](#) and share our videos with your friends!

Above, the table distribution of an FGX plant is shown. You can see clearly how the reject, middlings, and clean coal are separated.

## FGX Testing Schedule Doesn't Slow Down

FGX SepTech has continued testing a wide variety of coal from different regions in the United States and different countries. Some tests are conducted at our headquarters in Lexington, KY with others being held at the mine site with our mobile testing unit (pictured above left). If you are interested in having your coal tested with FGX contact us today!

## FGX on Youtube - Check It Out!

FGX has a brand new Youtube channel with tons of videos showing FGX technology at work. You can see coal tested from many different regions in the US, as well as other countries around the world. Be sure to [check it out](#) and share our videos with your friends!

Above, the table distribution of an FGX plant is shown. You can see clearly how the reject, middlings, and clean coal are separated.

## FGX Testing Schedule Doesn't Slow Down

FGX SepTech has continued testing a wide variety of coal from different regions in the United States and different countries. Some tests are conducted at our headquarters in Lexington, KY with others being held at the mine site with our mobile testing unit (pictured above left). If you are interested in having your coal tested with FGX contact us today!

## FGX Attends the 2016 Friends of Coal Golf Open

FGX had a great time attending the 2016 Friends of Coal Golf Open for the Illinois Coal Basin on Friday, June 3 at the Owensboro Country Club Golf Course. We sponsored a hole during the tournament and raffled off a \$100 gift card to the Pro Shop. This was a great event for people in the industry to get together and enjoy a day of golf.

## Dr. Parekh Speaks at Coal Association of Canada Conference

FGX's Senior Engineer, Dr. B.K. Parekh, spoke at the Coal Association of Canada's Annual Conference. The conference was held in Vancouver June 8th-10th. We are pleased that Dr. Parekh had the opportunity to present on FGX dry coal processing technology. Be sure to check our newsletter to find out where Dr. Parekh will be speaking next!

## Have You Seen Our New Look?

FGX online has a new look, [www.fgxseptechnology.com](http://www.fgxseptechnology.com)! Besides a stunning new design, it is also optimized for mobile devices and tablets so you can access it on any device. Our online [Information Library](#) is a great resource for learning more about FGX technology. Make sure you sign up with your [email](#) to receive the latest updates from our blog!

## FGX Goes Out West

FGX just returned from the [Rocky Mountain Coal Mining Institute Annual Conference](#) in Steamboat Springs, Colorado. The event took place Sunday June 26th through Tuesday June 28th. As with any RMCMI event, we had a great time and can't wait for the next one!

Our online [Information Library](#) is a great resource for learning more about FGX technology. Make sure you sign up with your [email](#) to receive the latest updates from our blog!

## FGX Goes Out West

FGX just returned from the [Rocky Mountain Coal Mining Institute Annual Conference](#) in Steamboat Springs, Colorado. The event took place Sunday June 26th through Tuesday June 28th. As with any RMCMI event, we had a great time and can't wait for the next one!

## FGX on Youtube - Check It Out!

FGX has a brand new Youtube channel with tons of videos showing FGX technology at work. You can see coal tested from many different regions in the US, as well as other countries around the world. Be sure to [check it out](#) and share our videos with your friends!

Above, the table distribution of an FGX plant is shown. You can see clearly how the reject, middlings, and clean coal are separated.

## FGX Testing Schedule Doesn't Slow Down

FGX SepTech has continued testing a wide variety of coal from different regions in the United States and different countries. Some tests are conducted at our headquarters in Lexington, KY with others being held at the mine site with our mobile testing unit (pictured above left). If you are interested in having your coal tested with FGX contact us today!

## FGX Attends the 2016 Friends of Coal Golf Open

FGX had a great time attending the 2016 Friends of Coal Golf Open for the Illinois Coal Basin on Friday, June 3 at the Owensboro Country Club Golf Course. We sponsored a hole during the tournament and raffled off a \$100 gift card to the Pro Shop. This was a great event for people in the industry to get together and enjoy a day of golf.

## Dr. Parekh Speaks at Coal Association of Canada Conference

FGX's Senior Engineer, Dr. B.K. Parekh, spoke at the Coal Association of Canada's Annual Conference. The conference was held in Vancouver June 8th-10th. We are pleased that Dr. Parekh had the opportunity to present on FGX dry coal processing technology. Be sure to check our newsletter to find out where Dr. Parekh will be speaking next!

## FGX Attends the 2016 Friends of Coal Golf Open

FGX had a great time attending the 2016 Friends of Coal Golf Open for the Illinois Coal Basin on Friday, June 3 at the Owensboro Country Club Golf Course. We sponsored a hole during the tournament and raffled off a \$100 gift card to the Pro Shop. This was a great event for people in the industry to get together and enjoy a day of golf.

## Dr. Parekh Speaks at Coal Association of Canada Conference

FGX's Senior Engineer, Dr. B.K. Parekh, spoke at the Coal Association of Canada's Annual Conference. The conference was held in Vancouver June 8th-10th. We are pleased that Dr. Parekh had the opportunity to present on FGX dry coal processing technology. Be sure to check our newsletter to find out where Dr. Parekh will be speaking next!

## Have You Seen Our New Look?

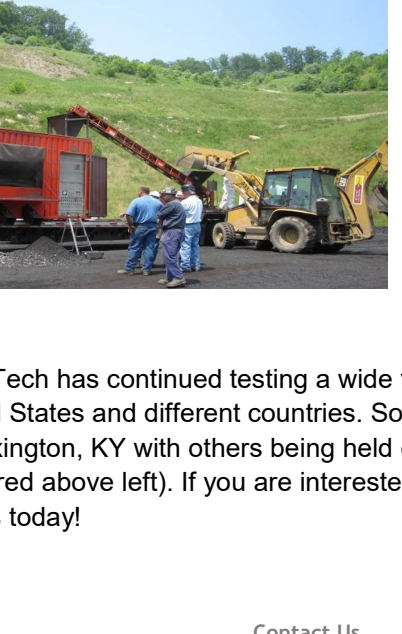

FGX online has a new look, [www.fgxseptechnology.com](http://www.fgxseptechnology.com)! Besides a stunning new design, it is also optimized for mobile devices and tablets so you can access it on any device. Our online [Information Library](#) is a great resource for learning more about FGX technology. Make sure you sign up with your [email](#) to receive the latest updates from our blog!

## FGX Goes Out West

FGX just returned from the [Rocky Mountain Coal Mining Institute Annual Conference](#) in Steamboat Springs, Colorado. The event took place Sunday June 26th through Tuesday June 28th. As with any RCMCI event, we had a great time and can't wait for the next one!

## FGX on Youtube - Check It Out!

FGX has a brand new Youtube channel with tons of videos showing FGX technology at work. You can see coal tested from many different regions in the US, as well as other countries around the world. Be sure to [check it out](#) and share our videos with your friends!

Above, the table distribution of an FGX plant is shown. You can see clearly how the reject, middlings, and clean coal are separated.

## FGX Testing Schedule Doesn't Slow Down

FGX SepTech has continued testing a wide variety of coal from different regions in the United States and different countries. Some tests are conducted at our headquarters in Lexington, KY with others being held at the mine site with our mobile testing unit (pictured above left). If you are interested in having your coal tested with FGX contact us today!

## FGX Attends the 2016 Friends of Coal Golf Open

FGX had a great time attending the 2016 Friends of Coal Golf Open for the Illinois Coal Basin on Friday, June 3 at the Owensboro Country Club Golf Course. We sponsored a hole during the tournament and raffled off a \$100 gift card to the Pro Shop. This was a great event for people in the industry to get together and enjoy a day of golf.

## Dr. Parekh Speaks at Coal Association of Canada Conference

FGX's Senior Engineer, Dr. B.K. Parekh, spoke at the Coal Association of Canada's Annual Conference. The conference was held in Vancouver June 8th-10th. We are pleased that Dr. Parekh had the opportunity to present on FGX dry coal processing technology. Be sure to check our newsletter to find out where Dr. Parekh will be speaking next!

## Have You Seen Our New Look?

FGX online has a new look, [www.fgxseptechnology.com](http://www.fgxseptechnology.com)! Besides a stunning new design, it is also optimized for mobile devices and tablets so you can access it on any device. Our online [Information Library](#) is a great resource for learning more about FGX technology. Make sure you sign up with your [email](#) to receive the latest updates from our blog!

## FGX Goes Out West

FGX just returned from the [Rocky Mountain Coal Mining Institute Annual Conference](#) in Steamboat Springs, Colorado. The event took place Sunday June 26th through Tuesday June 28th. As with any RMCMI event, we had a great time and can't wait for the next one!

## FGX on Youtube - Check It Out!

FGX has a brand new Youtube channel with tons of videos showing FGX technology at work. You can see coal tested from many different regions in the US, as well as other countries around the world. Be sure to [check it out](#) and share our videos with your friends!

Above, the table distribution of an FGX plant is shown. You can see clearly how the reject, middlings, and clean coal are separated.
