FGX on the Cover of Coal Age

As a long time exhibitor at Coal Prep, FGX was featured on the cover of the April issue of Coal Age magazine. A photo of our FGX-12 plant for Sun Energy Group in Holland, IN is on the cover with a write up inside about some of the latest happenings with our company. Be sure to check it out! You can access the online issue [here](#).

FGX was also featured in the April issue of Coal People magazine. You can see the article on page 12. The digital edition of Coal People can be accessed [here](#).

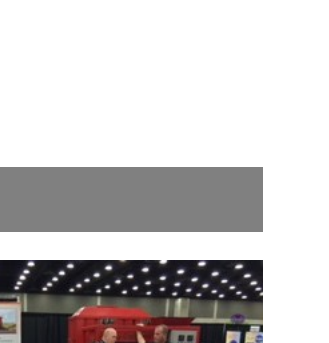

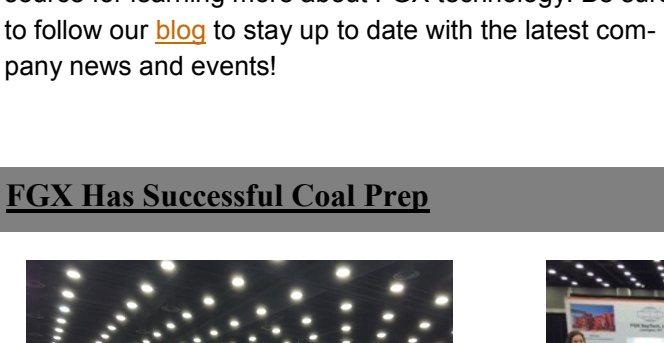

FGX Will be in TX for the RMCMI/TMRA Joint Conference

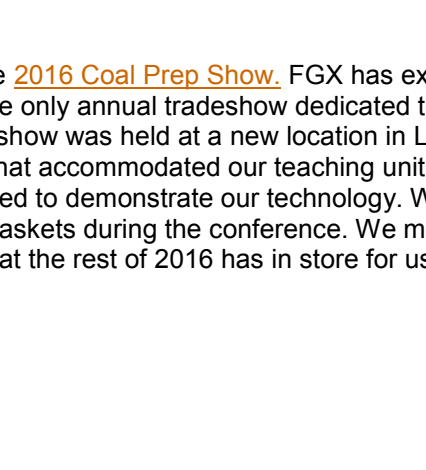

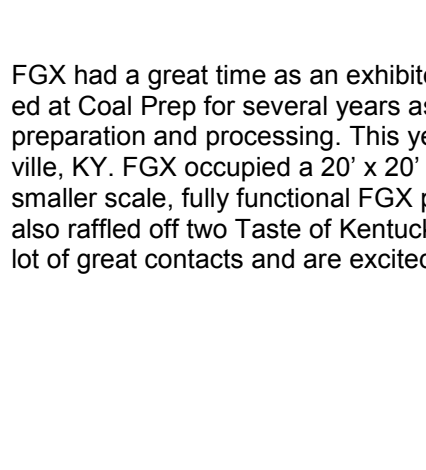

FGX SepTech is excited to exhibit again at the [Rocky Mountain Coal Mining Institute](#) and [Texas Mining and Reclamation Association](#) Joint Conference at Horseshoe Bay Resort in Texas. The conference takes place on May 11th—13th. This is a great conference in a beautiful location and we are eager to be joining these wonderful associations again.

FGX SepTech's New Website is Now LIVE!

Above, the table distribution of an FGX plant is shown. You can see clearly how the reject, middlings, and clean coal are separated.

FGX Has Successful Coal Prep

FGX had a great time as an exhibitor at the [2016 Coal Prep Show](#). FGX has exhibited at Coal Prep for several years as it is the only annual tradeshow dedicated to coal preparation and processing. This year the show was held at a new location in Louisville, KY. FGX occupied a 20' x 20' booth that accommodated our teaching unit—a smaller scale, fully functional FGX plant used to demonstrate our technology. We also raffled off two Taste of Kentucky gift baskets during the conference. We made a lot of great contacts and are excited for what the rest of 2016 has in store for us.
